Java jitter buffer

Packet reordering / Reconstruction

What is a jitter buffer. What is jitter buffer for voip.

What is a jitter buffer. What is jitter buffer for voip. I added the following lines to the end of the setupFMJ method inside MediaServiceImpl (Where you pointed me to): Registry.set("adaptive_jitter_buffer_ENABLE", true); 1); Registry.set("adaptive_jitter_buffer_MAX_SIZE", 1); But when I check the technical call details during a phone with another client, the jitter buffer is still at 4 packets. packets.
